

# Hand Operated Spot Gun 2 kVA

Now Supplied with Case and Accessory Kit  
125mm, 500mm arms, and pair of cranked electrodes

## Key Features

- Input Voltage 230V - 16Amp
- Lightweight professional spot gun for car body repair
- Synchronous built-in electronic timer with SCR from 2 to 65 cycles
- Compensation circuit starts the timer only when there is a proper passage of current which enables to perform on oxidised sheets, on surfaces with paint residues or on black sheets
- All transformer are coated with F class insulation material that does not dry out and become brittle
- Force adjustment with scale in daN
- Additional arm couplings to provide larger opening between arms
- Large choice of arms and electrodes

## 7900/110 Version

- \* 110V Version of the Hand Operated Spot Gun - 2 kVA  
Input Voltage 230V - 32Amp
