

Cutting and Welding Torches

Type 5

Designed to cope with the demands of modern fabrication/welding environments. The easy adaptation of the handle makes these torches suitable for welding, cutting and heating operations.

Key Features

- Welds mild steel to 25mm (1"), 3/8" BSP fitting
- Cut to 150mm (6") with acetylene and 76mm (3") with propane
- Conform to ISO 5172

Type 5 Shank

Order Code: T5SH

Type 5 Cutting Attachment

Order Code: T5CA

Type 5 Welding Mixer

Order Code: T5WM

Type 5 Propane Heating Mixer

Order Code: T5PHM

AHT Bent Neck 10.5" Acetylene Heating

Order Code: AHT266

Stainless Steel Bent Neck 12" Propane Heating

Order Code: SSBN12

Stainless Steel Bent Neck 28" Propane Heating

Order Code: SSBN28

Lightweight

The G-Tech Lightweight Range is designed for Automotive & Light Sheet Metal Work

Key Features

- Welds mild steel to 8mm (5/16"), cuts to 25mm (1")
- 1/4" BSP fitting
- Conform to ISO 5172

Lightweight Shank

Order Code: LWSH

Lightweight Cutting Attachment

Order Code: LWCA

Lightweight Welding Mixer

Order Code: LWWM

All Products supplied in full colour packaging
