Aluminium WIRE/GTAW

Standards

EN/ISO-Standard - 18273

EN/ISO-Classification - S Al 1070 (Al99.7)

AWS-Standard - A5.10

AWS-Classification - ER 1070

Features and Applications

- High purity aluminium wire for welding pure aluminium.
- Highly resistant to weathering and chemical attack.
- Good resistance to atmospheric conditions in a wide range of corrosive media, particular alkaline environments.
- ER 1070 wire offers excellent weldability when properly cleaned prior to welding.
- Heavy parts and thicker plates should be pre-heated to (150°C) prior to welding.
- Typically used on applications for chemistry, electronics, construction and food industries etc.
- **Test Certificates can be found online @wilkinsonstar247.com**
